The Jordan Super.Fly 4 is the next installment of the Jordan Super.Fly series set to release from Jordan Brand. This silhouette is one of the more popular shoes from the brand aside from their Air Jordans series.

Adding some upgrades while keeping its traditional look, the Jordan Super.Fly 4 is built with a one-piece, no-sew base that offers mesh detailing for lightweight breathability. The shoe keeps its Zoom cushioning that looks to be complete with FlightPlate. An external heel counter is built on the back for stability for the foot for all motion movement.

As of right now there is no exact release date set for the first launch of the Jordan Super.Fly 4, as reports have them debuting later this October 2015.

Check out the detailed photos of one of the upcoming releases as well as a few other colorways below and let us know what your first thoughts of the silhouette are in the comments section?
